

Progressive

PARTIAL HOSPITALIZATION PROGRAM
Of Seaside Health System

Welcome to Progressive of Seaside

Progressive PHP of Seaside Health System, located just north of Baton Rouge, Louisiana offers intensive mental health treatment at the Partial Hospital level of care, specializing in the dual diagnosed patient. Partial hospitalization is designed to provide the least restrictive environment to prevent inpatient hospitalization or conversely, to further stabilize patients being discharged from an inpatient hospital setting.

Our rural setting allows us to provide care without outside distractions. In this comfortable, safe and serene setting, we focus on assisting our clients in learning how to cope effectively with their mental illness. We accomplish this through an individualized program consisting of multi-disciplinary groups and one-to-one therapy.

The foundation of Seaside is based on a strong commitment to patients, families and the communities we serve. We are committed to the provision of quality, compassionate care with focus on the needs of the individual.

Mission

We strive to provide exceptional care and to improve the quality of life for those in need of behavioral health services, in an atmosphere of kindness, compassion, and understanding.
